

Desarrolla una aplicación con un formulario en index.jsp, un servlet ("/hello") que verifique si dos contraseñas son iguales.

The image shows a login form with a yellow and orange header bar containing the word "Login" in bold black text. Below the header is a light blue area containing three input fields: "Introduce nombre", "Introduce contraseña", and "Repite contraseña". A "Submit" button is located below the first two fields. To the right of the "Submit" button is a link that says "version extendida" in purple, underlined text.

version extendida <https://mylog1n.herokuapp.com/>
